**Research Methodology:** With the help of the systemic approach the efficiency of reformation and strategy of custom service development, as well as their influence on the state of economic security of Ukraine were investigated.

**Results:** The establishment and modern state of the country customs security as a component of economic security were analyzed. The state of provision and features of realization of customs security of Ukraine were evaluated. The mechanisms of the optimization of customs security development in the provision of economic security were offered. Advantages and lacks of the complex program of customs service of Ukraine development were exposed.

**Novelty:** Objective pre-conditions of the customs security formation in the state economic security were exposed. Practical activity of customs service on questions of the implementation of the governmental programs, pluses and minuses of long-term plans, volumes of their financing, state and international help to customs authorities in the execution of the tasks put before them were analyzed.

**The practical significance:** On the basis of the improved methodology of the research of customs constituent of the state economic security the practical recommendations, which are a scientific basis for the formation of forecasts, strategies and programs of long-term development of custom authorities of Ukraine, were developed. It will promote the increase the level of customs and state economic security.
