Research Methodology. The subject and object of research led to the use of the system of scientific and special methods (comparative-legal, system-structural and others).

The Results. A comprehensive study of disciplinary, administrative, civil, financial and criminal liability of military personnel was made.

Novelty. The novelty of the research is determined by the introduction of science-based proposals for the formulation of problems.

The practical significance. The practical significance of these results is determined by their usage: in the practice of the military; in subsequent general theoretical studies; in the preparation of the relevant sections of textbooks, reference books, scientific articles and other.
